

PICK-UP POST

Outdoor pick-up post for smart card product loading

The Cammax Pick-Up Post is a robust outdoor post with optional base which can be floor mounted or wall mounted in bus stops or other public locations to allow members of the public to quickly and efficiently collect ITSO Smart Products. The Pick-Up Post is integrated with a small PC, 7" High Bright Screen, Smartcard Reader and 3G/4G Modem. The Posts work by integrating into any Third Party ITSO Part 11 Solution. The Cammax Pick-Up Post can also be used as a Tap On/Tap Off Smart Card Validator.
