

SMART RETAIL POINT

Sell and manage customers smart tickets from any pc or location

The Cammax Smart Retail Point is a standalone application which allows the sale and loading of any smart products via a smart card reader. The application can be installed as a desktop application on existing staff PC's or as a standalone system on the Cammax Sales Buddy (illustrated below). This system is perfect for providing Third Party Agents the ability sell or manage ITSO Smart products. This includes locations such as Travel Centres, Schools, Councils and a range of other Third Party Agents. The Cammax SRP works by integrating into any Third Party ITSO Part 11 Solution.

- Desktop version
- Fast transactions
