

## GP27 Large screen cashless pay station

The Cammax GP27 has been designed with versatility in mind, with the option of wall or pole mounting to suit every install as well as incorporating the latest in card payment technology, encompassing contactless and mobile payments. This unit is ideal for indoor locations, where the large 27" bright full colour touch screen interface, offers customers a clear and easy to follow user journey to pay for their parking. The GP27 has a slimline profile compared with other card handling pay stations and can be equipped with a variety of upgrade options to bring our parking partners' innovative ideas to life.
